

VINNY (born 1997)

Vinny is a Quarter Horse, trained as a western reiner and then as a hunter. After retiring from his jumping career, he became a therapy horse. He has a big walk and a big trot, and is incredibly smooth. He is a great listener and likes to fill in the gaps for our riders, knowing what they are asking for even if it isn't asked clearly. He is a student favorite and has many riders hoping to ride him each week.
