

## **HONEY (born 2008)**

Honey is a Haflinger mare, a solidly built, smaller breed of horse known as the “golden horse with the golden heart”. Honey is kind, willing and steady, an ideal child’s mount. Her gaits are energetic but smooth, perfect for therapeutic riding. She is sensitive enough to listen to even the smallest cue from our riders, which makes her a wonderful horse for learning to ride off lead.

Honey was Partners therapy horse of the year in 2014
